

Google Chrome allows users to set personalized Privacy settings. With some of the available settings selected, browser registration may not be retained by Chrome, causing you to be prompted for a Secure Access Code on every log in. Refer to the instructions below to have Chrome retain your preferences for DFCU OnLine.

Incognito Mode

Follow the steps below to ensure that Chrome is not in Incognito Mode.

When Incognito Mode is enabled, the Incognito Mode icon will appear in the upper left corner of the window.

To disable Incognito Mode, close the browser and re-open.
