

Internet Explorer allows users to set personalized Privacy settings. With some of the available settings selected, browser registration may not be retained, causing you to be prompted for a Secure Access Code on every log in. Refer to the instructions below to have Internet Explorer retain your preferences for DFCU OnLine.

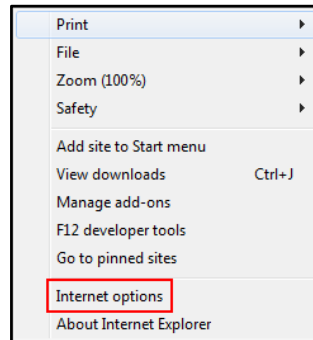

Clearing Browser History on Exit

Follow the steps below to ensure that Internet Explorer is not clearing history on exit.

Open the Tools Menu.

Select Internet Options from the Menu.

Under Browsing History on the General tab, ensure that the 'Delete browsing history on exit' box is not checked.
