<sup>1</sup>Dividends are paid from current income and available earnings, after required transfers to reserves have been made. These are prospective Annual Percentage Yields and dividend rates expected to be paid.

<sup>2</sup>DFCU Financial does not open new Interest Checking Plus/DFCUPerks Plus accounts. For existing accounts to avoid a monthly fee an aggregate minimum average daily balance of \$10,000.00 must be maintained.

<sup>3</sup>The minimum balance required to open an Insured Money Market Account is \$2,500.

<sup>4</sup>You must maintain an aggregate minimum average daily balance of \$200 to avoid a monthly fee.

<sup>5</sup>Dividend rates are determined by the principal balance when your certificate is opened. Dividend payments will not affect the dividend rate during the term even if the minimum balance for the next tier is met.

Early withdrawal penalties do apply. For further information on these accounts please refer to the Truth In Savings disclosure or contact a Member Service Agent at 888-336-2700.

All APY rates are based on \$1,000 or minimum balance requirements, whichever is higher. Please refer to your statement for actual Annual Percentage Yield. All savings are federally insured to at least \$250,000 and backed by the full faith and credit of the United States government by the National Credit Union Administration, a US Government agency. Rates are subject to change without notice.
